

ELEMENT Continuous Control Valve Systems – overview

**Angle-seat control valve
Continuous ELEMENT system
Type 8802-YG**

**Globe control valve
Continuous ELEMENT system
Type 8802-GD**

**Diaphragm control valve
Continuous ELEMENT system
Type 8802-DF**

The design of the System Type 8802 Continuous ELEMENT enables the easy integration of digital automation modules whether they are simple Positioner Basic, high-capacity Positioner with optional integrated fieldbus interface or even a digital Process Controller with easy handling thanks to the backlighting of the graphics display.

The fully integrated system with control valve and automation system has a compact and smooth design, integrated pneumatic lines, IP65/67/NEMA4X protection class and superior chemical resistance.

Ordering information for valve system Continuous ELEMENT Type 8802-YG

A valve system Continuous ELEMENT Type 8802-YG consists of an angle-seat control valve Type 2300 and a digital electropneumatic Positioner Type 8692, a digital electropneumatic Process Controller Type 8693 or a digital electropneumatic Positioner Basic Type 8694 (for valve actuator sizes $\varnothing 70/90$ mm) or a digital electropneumatic Positioner Type 8696 (for valve actuator size $\varnothing 50$ mm) (see separate datasheets).

You order two components and receive a complete assembled and certified valve.

Click on the orange box "More info." below... you will come to our website for the resp. product where you can download the datasheet.

Ordering information for valve system Continuous ELEMENT Type 8802-GD

A valve system Continuous ELEMENT Type 8802-GD consists of a globe control valve Type 2301 and a digital electropneumatic Positioner Type 8692, a digital electropneumatic Process Controller Type 8693 or a digital electropneumatic Positioner Basic Type 8694 (for valve actuator sizes $\varnothing 70/90$ mm) or a digital electropneumatic Positioner Type 8696 (for valve actuator size $\varnothing 50$ mm) (see separate datasheets).

You order two components and receive a complete assembled and certified valve.

Ordering information for valve system Continuous ELEMENT Type 8802-DF

A valve system Continuous ELEMENT Type 8802-DF consists of a diaphragm control valve Type 2103 and a digital electropneumatic Positioner Type 8692, a digital electropneumatic Process Controller Type 8693 or a digital electropneumatic Positioner Basic Type 8694 (for valve actuator sizes $\varnothing 70/90$ mm) or a digital electropneumatic Positioner Basic Type 8696 (for valve actuator size $\varnothing 50$ mm) (see separate datasheets).

You order two components and receive a complete assembled and certified valve.

Click on the orange box "More info." below... you will come to our website for the resp. product where you can download the datasheet.
